

DESCRIPTION

- The Aero Flow Air Regulator transforms compressed air into a gentle and smooth airflow, delivering it directly to the user. Depending on your specific needs, the airflow can be infinitely adjusted from 170 to 305 L/min. With its lightweight and compact design, it ensures comfortable extended use and is compatible with welding helmets and grinding face shields.

Specifications/Technical Data	
Inlet Pressure	3- 8 Pressure range (kg/cm2)
Warning Pressure	3 Warning whistle pressure (kg/cm2)
Airflow Per Min	170- 305 L/min
