AC483 MPH1 HOOD PREPARED FOR AIR

CONFORMITIES/STANDARDS

EN 12941

DESCRIPTION

• The MPH hood is designed with a lightweight specialised fabric, innovative design, breathable dust-proof and anti-static material. The hood can be easily disinfected or cleaning using light detergent. Combined with Quantum Powered Air Purifying Respirator, providing full protection against airborne particles, vapours and mists. The MPH PAPR system is perfect for hospital, healthcare & pharmaceutical applications.
